

Singlefact: DARIA – „Love Blind“

Release: 26.03.2021

Daria is a singer-songwriter who took her first steps in the music industry while studying in London (London College of Voice). At that point her focus was still on opera singing, but London first sparked her passion for soul music. She performed on various stages in London and developed her own style. After completing her studies, she first returned to her native Poland, where she first took part in the casting show "The Voice" and was able to qualify for the finals. When she wrote her songs and posted excerpts from them on social media, the Pelican team became aware of her. The producers were particularly impressed by her special vocal color.

"Love Blind" is the name of Daria's debut project and is a mixture of dance / pop and soft slaphouse elements. When you hear her voice, which reminds you of a mixture of Amy Winehouse and Adele, you get the feeling of falling "blindly" in love with this voice. "Love Blind" convinces with its positive vibes and immediately creates a good mood.

Daria lives her dream and speaks the musical language of the young generation who are looking for daring adventures and new love right now, who can also be "love blind" and crazy.
