

Singlefact: Jona Selle – „November rain“

Release: 03.12.2021

Jona Selle is an established singer-songwriter who has been looking for his way in various repertoire terrains, but finally found his goal in dance. Jona Selle was able to earn his first successes with TOPIC and the track "Light it up". As a result he wrote on Topic's first album "Miles" and was there as a singer. Together with Topic and Nico Santos he wrote the top hit "Home", which achieved platinum status in Germany.

With the track "November rain" Jona Selle is now releasing his second track with the well-known producer team Pelican, which has already established itself on the market with productions for Alle Farben, Robin Schulz or Dimitri Vegas & Like Mike and Felix Jaehn.

The track is based on a mixture of deep dance pop combined with melancholic vibes, which in their own way create a very special emotional moment. Perfect for the time to come.
